

Press Release

Opening: Thursday, 26/03/2026, 7-10 p.m.
On view until 02/05/2026

The **a.antonopoulou.art** gallery presents **Leon Michail's** solo exhibition entitled **Beyond the Landscape**.

In this new series of works, Leon Michail continues and expands upon the abstract perspective of his painting. A perspective that could not, all on its own, interpret the unfamiliar, particularly otherworldly sensation that his visual spaces exude. Their physiognomy seems to be shaped by a delicate balance between recognizable, enigmatic, and imperceptible elements, within a restless environment of **"impenetrable light."**

Particular emphasis is placed upon the chromaticity and materiality of his expressive mediums. At the same time, he develops dynamic writings in dialogue with gentle tonal transitions and progressively moves towards an autonomy of the image, beyond landscape reference or representation.

In his latest works, we are ultimately accompanied by a lingering impression of discoloration, erosion, but also reconstruction. The signs of a place's evolution over time begin to emerge, while a "primordial image" is suggestively revealed, which we are invited to discover.

The text accompanying the exhibition is edited by **Kostas Christopoulos** (Associate Professor at the Athens School of Fine Arts).

The gallery will be closed for the Easter holidays from Thursday, 9 April, through Tuesday, 14 April.

Opening hours: Wednesday, Thursday, Friday 14:00-20:00 & Saturday 12:00-16:00
